Experience/Projects

Mridanga Media Company

June 2024 – Present

Developer

Kolkata, India

- Engineered and implemented a cutting-edge **CRM system** using Voice flow, JavaScript, and ZohoDesk, **substantially reducing operational costs** and enhancing client support efficiency.
- Developed versatile tech stack proficiency, utilizing React, Node.js, WordPress, and TypeScript to meet diverse client requirements, significantly improving project adaptability.
- Implemented **rigorous quality assurance protocols, ensuring task efficiency** and near-zero-defect deliverables, directly contributing to a notable increase in client retention rates
- Leveraged advanced automation techniques to optimize client operations, resulting in **substantial reductions in operational expenses**.

FarmSense

February 2024- April 2024

Project

Punjab, India

- Led a cross-functional team in developing an innovative web application for agricultural crop price prediction, leveraging government data to create **a robust predictive model for farmers**.
- Implemented **dynamic styling and responsive UI** using React.js and styled-components, ensuring an intuitive and accessible interface for users across diverse technological backgrounds.
- Demonstrated strong leadership** and project management skills by coordinating team efforts, meeting tight deadlines, and delivering a high-quality product that empowers farmers with data-driven insights.

Bhakti Yoga Rishikesh

October 2024 – October 2024

Project

Kolkata, India

- Developed a multifunctional website for Bhakti Yoga Rishikesh to manage events and activities efficiently, enhancing user engagement and operational efficiency.
- Improved client revenue streams by integrating seamless booking and payment systems, showcasing strong communication and collaboration skills.

Govardhan Retreat Center

October 2024 – November 2024

Project

Kolkata, India

- Crafted an immersive website for Govardhan Retreat Center, offering captivating room insights and **enriching visitor experiences**, which led to increased bookings and **client satisfaction**.
- Utilized **effective communication** to understand client needs, ensuring the website aligned with their vision and business goals.

Nordsun

November 2024 – November 2024

Project

Kolkata, India

- Developed a bilingual website for Nordsun, enhancing international reach for interior design clients. This project expanded their market presence and facilitated better client communication across different regions.

Awards & Achievements

The Complete 2024 Web Development Bootcamp

January 2024 – February 2024

- Mastered full-stack web development through an in-depth course covering front-end, back-end, databases, and **essential work ethics**. Developed **strong problem-solving skills**, hands-on experience, and the ability to create modern, **scalable web applications** with best practices.
